High Threat

Moderate Threat

Slight Threat

Today's Forecast:

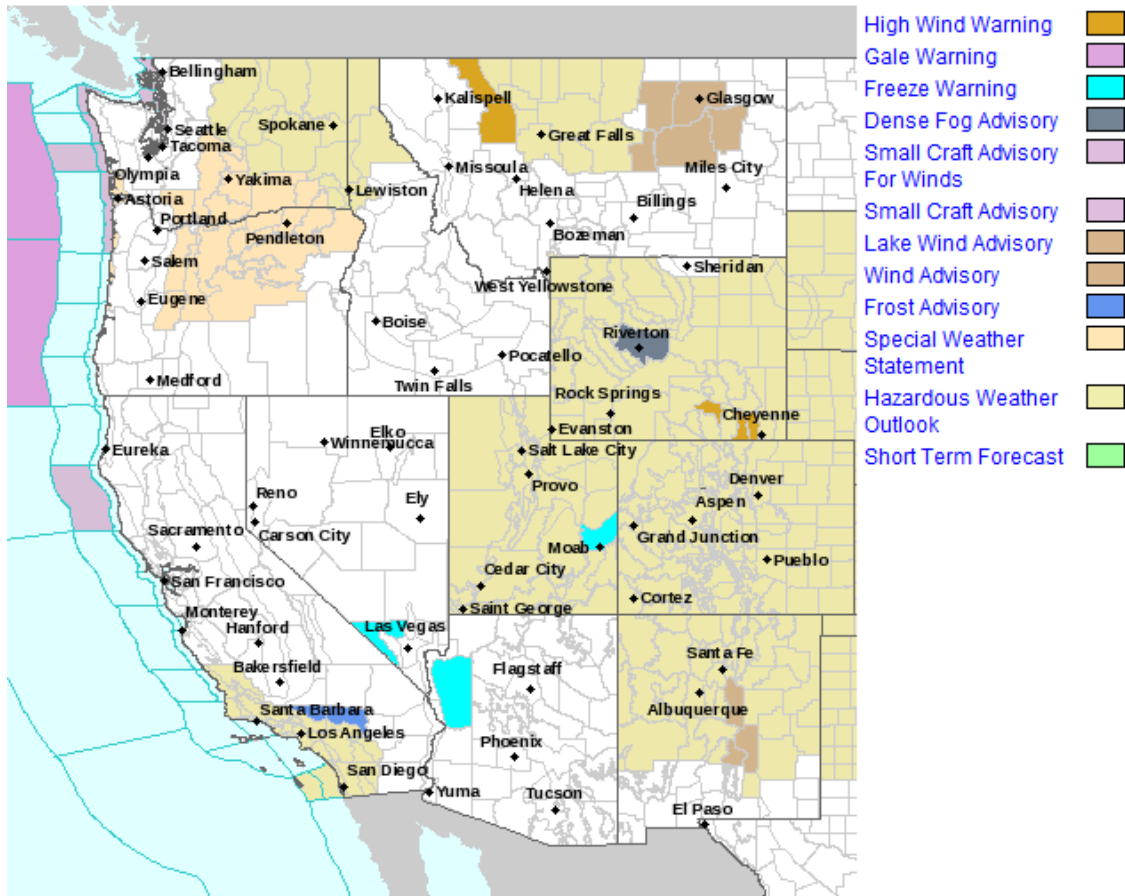

Northern California

High pressure will continue to build over the region with dry and warmer weather today through Friday. Another storm system will bring a chance of precipitation and cooler temperatures this weekend.

Southern California

High pressure and redeveloping offshore flow will continue to warm daytime temperatures through Friday. A cooling trend will begin Saturday and continue through Monday as a trough deepens across the west.

State Weather Map:

III. FIRES:

Overall Fire Risk:

Northern California

High pressure over the Eastern Pacific will produce dry and warmer weather throughout Northern California through Friday with light N-NE/Offshore winds during nights and mornings. Fuels will gradually dry out through Friday. An approaching front on Saturday will bring light moisture to areas north of Eureka-Redding-Alturas, but the dry and breezy pattern beginning Saturday night will start another drying trend that will last at least through the middle of next week. Low to moderate risk of large fires expected through the period.

Southern California

Large fire potential will be low during the next several days, mainly due to a lack of wind. Fine fuels will remain unreceptive to ignition today due to the recent rainfall over most areas, but by Thursday and Friday, expect fine and dead fuels to dry back out over areas which received under a quarter inch of rain. Areas from western Los Angeles County northward toward the central coast did not receive much precipitation from the recent storm and fuels in these areas will see ignition components rise quickly during the afternoon hours. However, winds should remain light in these areas and any new start will see only moderate rates of spread. IA may increase slightly through

Friday, but is expected to remain light overall. Onshore flow will overspread the area Sunday, bringing higher afternoon RH and decreasing ignition components.

Preparedness Levels:

National Preparedness Level 1

Northern California

Preparedness Level 1 Multi-Agency Coordination System MACS Mode 2

Southern California

Preparedness Level 2 Multi-Agency Coordination System MACS Mode 2

IV. SIGNIFICANT ACTIVITY:

Tsunami Information Statement, 6.6 Magnitude Earthquake, Taiwan: (New/Final)

On 10/31/13 at 0502 hours, a verified 6.6 magnitude earthquake occurred near Taiwan. Per the National Tsunami Warning Center (NTWC), based on location and magnitude there is no tsunami danger for California (no Watch, no Warning, and no Advisory). CSWC briefed California Coastal Counties via the California Warning System (CALWAS).

Northern California: NSTR

Southern California: NSTR

CAL OES MISSIONS:

New Missions: NSTR

Ongoing Missions: NSTR

Closed Missions:

2013-LAW-1442, on 10/28/13, Nevada County Sheriff's Department is requesting (30) Type-II ground searchers, (6) Area SAR K-9, (2) Trailing SAR K-9, and one helicopter to assist in searching for a missing 65 year old male miner last seen on 10/23/2013. NCSD has located MP's truck. California Highway Patrol has agreed to deploy their airship, H24, to assist NCSD. Cal OES Law Duty Officer is coordinating resources. On 10/29/2013 at 1006 hours, Nevada County Sheriff IC requested assistance from Cal OES for T-COM resources. Nevada County Sheriff advised due to remote search location they are having difficulty with their county repeaters and report poor radio communications, requesting the availability of a MIGU unit. Cal OES Communication Coordinators arrived last night 10/29/13 at the ICP and set up MIGU-4 with a portable VTAC36 repeater, Wi-Fi and phones; Telecomm is continuing to coordinate ACS Staff to assist with deployment. On 10/30/2013 at 1424 hours, NCSD advised that the MP was located deceased. NCSD requested a helicopter with hoist or long line capabilities, and at 1504 hours, CHP helicopter, H24, was deployed to the ICP. At 1730 hours NCSD began demobilization of all resources. All mutual aid resources have been released. Mission Closed.

EMAC Colorado (No update)

2013-SOC-1196, Three (3) Public Assistance staff from Cal OES Recovery are deployed to Colorado and their deployment has been extended from 15 days to 30 days. The deployment is scheduled to end 11/5/13. The Team Lead will check in each morning with the CSWC

2013-SOC-1417, Four (4) Public Assistance staff from Cal OES Recovery are deployed to Colorado beginning 10/28/2013 and ending 12/2/13. Public Assistance personnel are paired with FEMA Crews for communities declared in the disaster.

Staff to be deployed November 12, 2013

Two additional Disaster Assistance Program Specialists will be deployed November 12, 2013.
